PART II

WORK STATEMENT

II-A Purpose

The purpose of this project is to provide financial assistance to low-income households in paying household energy bills. Low-Income Energy Assistance Grants will be available to public or nonprofit organizations. Preference in awarding the grant(s) will be given to organizations with a proven record in distributing energy assistance to low-income residents, with an existing administrative structure to handle additional distribution activities, with the ability to coordinate the provision of assistance with other service providers, and who can provide assistance to residents in at least ten counties in Michigan, however, applications from other public and nonprofit organizations will be considered. Grants may be used to serve additional clients under existing eligibility guidelines, increase the amount of assistance available to each eligible household, or revise existing eligibility guidelines to serve clients otherwise unable to obtain assistance through existing programs. The Grant(s) will extend from the date of issuance, anticipated to be October 2002, through July 2003.

II-B Problem Statement

Compared with an estimated 6% for other households, low-income households may spend 15-25% of their income on household energy bills, meaning any increase in energy costs can have a significant impact. As Michigan's economic situation tightens, low-income households can face utility shut-offs for nonpayment of bills or the inability to purchase delivered fuels. Existing funding to provide energy assistance has not increased consistent with the need, and existing assistance eligibility guidelines include only the most needy households.

II-C Objectives

1. Provide assistance to low-income households statewide in paying energy bills, thus protecting customers from shut-offs by utility companies and the inability to purchase deliverable fuels.
2. Supplement existing energy assistance programs, enabling the providing organizations to increase the level of assistance provided to clients, serve more clients at the existing assistance levels and under current eligibility guidelines, and/or expand the eligibility requirements to include low-income households not eligible under current eligibility guidelines.

II-D Tasks

1. Coordinate promotion of availability of this assistance with other promotions currently being conducted by the grantee.

2. Coordinate provision of energy assistance with other service providers.
3. Provide energy assistance through the organization's existing administrative framework.
4. Provide quarterly progress reports, unless otherwise negotiated, and annual reports as detailed in Part III of this RFP.
5. Evaluate the success of the program by providing details on how many clients were reached, eligibility requirements used, and amount of assistance provided.

PART III

PROJECT CONTROL AND REPORTS

III-A Project Control

1. The selected applicant(s) will carry out the project under review of the State project manager. The Michigan Department of Consumer and Industry Services grant administrator shall have final authority over the agency/grantee agreement.
2. Along with continuous liaison with the selected applicants, the State project manager will meet as needed with the selected applicant's project manager for the purpose of reviewing progress and providing necessary guidance to the selected applicant in solving problems that arise.

III-B Reports

1. The selected applicant(s) will provide the State project manager with quarterly reports, unless otherwise negotiated, as described in the grant agreement. At a minimum, unless otherwise negotiated, the reports will outline the work accomplished during the reporting period including the number of clients served and the amount of funds distributed, work to be accomplished during the next reporting period, real or anticipated problems that should be brought to the attention of the State project manager, noteworthy accomplishments, and notification of any significant deviation from previously agreed-upon work plans.
2. An annual report as described in the grant agreement must be submitted to the State project manager within 30 days following the grant period expiration. At a minimum, unless otherwise negotiated, the final report will contain:
 - a. Description of project implementation including the number of clients reached by the project, range of assistance payments made, and average payment.
 - b. Number of eligible clients denied assistance due to lack of funding.
 - c. Copies of any materials used in the project.
 - d. Project evaluation including the impact on clients.
 - e. Significant problems encountered.
 - f. Significant accomplishments.
 - g. Recommendations for future projects and continuation of the Fund.

Grantees shall also maintain records of expenditures and submit financial reports to the Commission as required in this RFP or as negotiated. All grantees are subject to audit by the Commission Staff or other auditor designated by the Commission. Grantees who receive \$100,000 or more in any 12-month period will be required to submit an audited financial report for the grant period. At the end of the term of the grant, all unexpended funds must be returned to the State.
